

Colors listed below are for information purpose and in order to show the vast color range we use.

It is obvious that neither the screen, nor any printout represent the exact colors of the leather, but they can be used for ordering with the codes beside. Also note that irregularities in color and texture are typical quality features and no grounds for complaints.

Sizes start from 1,5 mm until 3,5 mm of diameter as follows (1,5 - 2,0 - 2,5 - 3,0 - 3,5)

|                                                                                     |                                              |                                                                                      |                                               |
